

Camoplast **TATOU[®]** 4-S

ANYWHERE, ANYTIME

4-SEASON SYSTEM

- Easy steering in all conditions
- The most stable operation on rugged terrain
- Maintains maximum power
- Matches or exceeds wheel-system hauling loads
- Improved traction
- Performance equal or superior to the Tatou Original in deep snow

TATOU[®] 4-S

THE UNIQUE 4-SEASON RIDING SOLUTION

NEW!

SPROCKET

Camoplast ATV Track Systems respect ATV mechanical performance

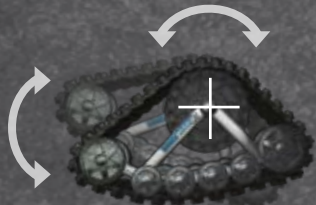

- Gear dimensions adjusted according to vehicle cylinders
- Maximum power maintained
- Ability to drive at faster speeds

BRACKETS

- Prevent damage
- Reduce maintenance

FRAME

- Simple, innovative and hassle-free design
- Solid steel construction
- Front and rear UCs pivot in tandem
- Arched shape for better handling in soft snow and hard pack (front)
- Flat surface with shorter pivot point (front)

- Using Flextrack™ technology

- Studed track option available (ICE Technology by Camoplast)

- New and improved frame - Available in black and silver

- Internal drive system
 - Reduced friction
 - Improved acceleration

- Elimination of clips

- Open design facilitates evacuation of debris
- Total weight: 71 lbs. (including all mounting hardware)

INTRODUCING THE NEW FLEXTRACK™

Specifically designed for the internal drive system

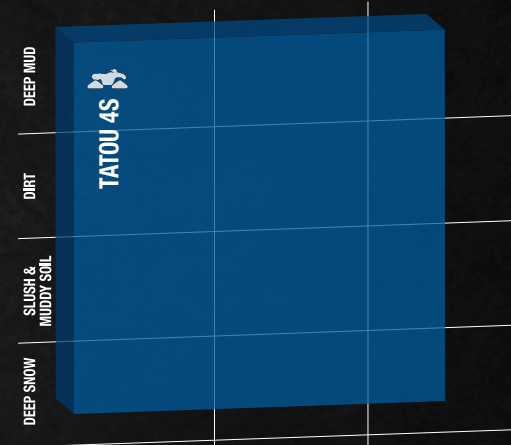

- 50% less splatter (mud, water, snow) than any other system on the market
- 75% less snow build-up on the ATV
- Thicker and re-engineered Flex portion
- Easy and stable handling
- Improved track design

DIMENSIONS	
OVERALL WIDTH	11.5" (292 mm)
OVERALL LENGTH	40" (1015 mm)
OVERALL HEIGHT	22" (560 mm)
TRACK OFFSET	5" (127 mm)
TRACK WEIGHT	68 lbs. (30 kg)
TRACK WIDTH	11.5" (292 mm)
MOUNTING KIT WEIGHT	25 lbs. (11 kg)
LUG HEIGHT	0.875" (22 mm)
FRAME	Carbon steel
DRIVE TYPE	Internal drive

PERFORMANCE	
GROUND SURFACE ²	1900" (1.20 m)
GROUND CLEARANCE	Increased by 3" (76 mm)
SPEED LOSS	35-40%
INSTALLATION TIME/SUBSEQUENT	1.5 hrs./30 min.

PERFORMANCE CHART

RECREATIONAL

- Trails
- Outings
- Excursions

SPORTSMAN

- Hunting & fishing
- Ranching, farming & odd jobs
- Reaching inaccessible areas

UTILITY

- Hauling & job site transportation
- Mining & construction
- Ski hills & resorts

ATVs BECOME 4-SEASON VEHICLES • UNMATCHED DURABILITY • UNUSUAL SIMPLICITY • REMARKABLE DRIVING CONTROL • MULTIPLE FUNCTIONS
